

## IN EACH ISSUE

### Profiling the Players Who Help Make It All Happen

**Player Profiles** (pages 14-24) - Player Profiles are full-page profiles of companies that have become advertisers at [www.orthosupplier.com](http://www.orthosupplier.com) since publication of the preceding issue. You are meeting these Players for the first time. These profiles are also available for viewing online at [www.orthosupplier.com/players/index.htm](http://www.orthosupplier.com/players/index.htm) and, a searchable database of Player Capabilities is also available online at [www.orthosupplier.com/admin/query.html](http://www.orthosupplier.com/admin/query.html).

**Supplier Services** (pages 25-27) - A Supplier Services directory appears in the centerfold of each issue. This listing is a continually updated roster of Suppliers providing products or services in support of our industry's manufacturing community, as evidenced by their having at least one Member in *The Institute for Orthopaedic Enlightenment* (see [www.orthoworld.com/institute.about.htm](http://www.orthoworld.com/institute.about.htm)).

**Supplier Profiles** (pages 28-29) - Supplier Profiles include brief descriptions of, and contact information for, Suppliers that have joined *The Institute* since publication of the preceding issue.

**The Players** (pages 30-35) - In each issue we present a summary listing of all Suppliers that rightfully deserve to be considered 'sponsors' of OrthoSupplier and BONEZone™ by virtue of their participation in OrthoSupplier's Promotional Program.

The size and scope of this directory will expand dynamically in accordance with our understanding of your needs and desires. Let us know what's hot, and what's not. Tell us, and we'll act.

NOTE: The following information is provided to correct inaccuracies in the Inaugural Issue's 2002 Supplier Directory.

Chapman Lake Instrument Corp.  
2115 N. Industrial Drive.  
Bloomington, IN 47404 USA
