

Miltronics & Skye

Engineering Parts — Perfect Performance

Exacting...by philosophy and design

When your reputation and other peoples' lives are dependent on the quality of the products you produce, Miltronics & Skye is the preferred supplier for small, highly engineered, complexly designed parts. We apply Six Sigma accountability and quality control procedures in accordance with ISO 9001 to everything we do, with zero tolerance for anything less than absolute customer satisfaction.

From medical appliances and instruments to defense-industry and aerospace applications, our unique combination of customer-focused engineering and lean manufacturing ensures:

- Optimum manufacturability
- Consistently tight tolerances
- Fast turnaround
- Market-sensitive pricing
- Reliable delivery
- Improved profitability

Miltronics & Skye uses a solid modeling platform to facilitate hands-on interaction with your in-house product development team. Our inventive design engineers are experienced in a diverse spectrum of manufacturing methods and materials.

If advanced design, precision engineering, and flawless manufacturing are your goals, we'd like to talk with you. Miltronics & Skye: pursuing perfection in the design and manufacture of small and geometrically complex parts.

Advanced Capabilities

- Design and Engineering
- Swiss CNC
- Standard Turning/Milling
- Passivation
- Electropolish
- Heat Treat
- Laser Marking
- Polishing
- Thread Rolling
- Wire EDM
- 5 Axis Tool/Cutter Grinding

Certifications

- Six Sigma/Lean Manufacturing
- ISO 9001:2000
- FDA Registered
- GMP

Challenging Materials

- Titanium
- Cobalt Chrome
- Implant-Grade Stainless Steel
- Nitralloy

The Sky's the Limit

As a Kilroy Company, Miltronics & Skye is part of Trust Technologies, an industry leader in the manufacture of precision-machined components, tools, and equipment for the aerospace, transportation, and power-generation industries. Precision engineering, lean manufacturing, and innovative partnering are the hallmarks of both organizations.

Together, these Kilroy companies comprise decades of engineering design and manufacturing expertise committed to complete customer satisfaction. Our capabilities extend from the design and manufacture of small and complex parts to five-axis machining capabilities for larger diameter parts.
