- Innovative, yet Practical

Investing for the Future

- People
- Processes and Technologies
- Facilities - Second facility dedicated to R&D and Advanced Manufacturing opening Fall of 2006 in Fort Wayne, Indiana

Orthopaedic Splints and Bracing

Nemcomed also offers a full line of orthopaedic splints and bracing. Our aluminum splint line is both x-ray translucent and malleable, for a form fit. The foam padding and electrostatic powder coating enhance the comfort fit. Ask about our full line of finger, hand, arm and leg splints.
