NEWS RELEASE

December 4, 2006

In'Tech Medical is pleased to announce the appointment of Jerome Chiesa as Vice President of Manufacturing for In'Tech Medical, Inc., based in Memphis, TN. Jerome has over 20 years experience in the manufacturing of products for the medical, automotive and electronics marketplace. He previously held positions in Manufacturing, Engineering, Research & Development, Quality and Regulatory Affairs and recently completed his MBA.

David Nelms recently left In'Tech Medical to pursue other interests and we wish him well in his future endeavors.

US Sales and Marketing activities will continue to be coordinated by William Vrabel who will now assume the sales responsibilities for customers in the Memphis region who were previously supported by Mr. Nelms.

In'Tech Medical is a rapidly growing contract manufacturer of medical devices specializing in the fabrication of spinal and orthopaedic instruments and implants. With more than 20 years experience in the industrial marketplace, In'Tech Medical employs more than 250 people at three manufacturing facilities in the US and France to serve the needs of spinal and orthopaedic companies worldwide.
