

Upper Saddle River, NJ – January 18, 2008 - Triangle Manufacturing Company, Inc, a leading manufacturer of surgical implants and medical instruments announced its 116 Pleasant Avenue facility achieved ISO 13485:2003 and 21 CFR Part 820 certification. This standard specifies requirements for a quality system that can be used for the design, development and production of medical devices that consistently meet applicable customer and regulatory requirements.

Dax Strohmeyer, Director of Marketing and New Business Development commented: "Triangle's culture and associates give us our competitive edge. Our 13485 certification is the result of the hard work and dedication of a very special group of people. I am proud to be a part of such a talented team and believe this recent accomplishment is a testament to our core values."

Triangle offers full turnkey manufacturing solutions to medical device OEMs.

About Triangle

Triangle Manufacturing Company, Inc. specializes in the precision engineering and manufacturing of highly complex, tight-tolerance machined parts and assemblies. We collaborate with our customers to develop the industry's most advanced products for the orthopedic, ENT, cranial, trauma, rehabilitation and sports medicine markets.
